

A SOCIAL STORY

# GOING BACK TO SCHOOL

@therainbowclassroom

Some children have carried on going into school because their families have been keeping other people safe.

@therainbowclassroom

Some children have not carried on  
going into school because their families  
have been looking after them at home.

@therainbowclassroom

It is a LONG TIME since all the  
teachers and children were together at  
school.

This might make you feel sad...

@therainbowclassroom

I am bored  
at home.

I feel safe  
at school.

I want to have a  
routine again.

I am missing all the  
people I see at school.

I want to carry on  
learning.

Whatever you are feeling is OKAY.

@therainbowclassroom

You might have lots of thoughts or  
worries too...

@therainbowclassroom

@therainbowclassroom

Whatever you are thinking is <sup>👉</sup>OKAY.

@therainbowclassroom

There is no right or wrong way  
to think or feel.

It is GOOD to talk to someone about  
how you are feeling and what you are  
thinking.

@therainbowclassroom

It is NOT a good feeling when you  
don't know what is happening.

It can make your head, heart  
and tummy feel a bit strange.

@therainbowclassroom

People are making plans for you to go back to school.

Right now, we are not sure **when** this will be for everyone, **BUT**...

We will tell you **before** it happens so that you have a **warning**.

You won't just **WAKE UP** one morning and have to go back to school!

@therainbowclassroom

When it is **SAFE**, we will all be together at school again.

At first you might feel **worried**, **excited** or a bit of both!

Everyone will be **SMILING** and **HAPPY** to see you though!

@therainbowclassroom

Your school family will do

EVERYTHING THEY CAN

to make sure you feel happy and

safe at school.
